ITALIANS BREAK **INVADERS LINES**

Definite Defeat of Austro-Germans on Upper Piave Accomplished

THE LOSSES ARE TREMENDOUS

Major-Gen. Maurice of British War Office Says Crisis Is Over

London, Nov. 30.-German first and second lines have been broken with tremendons losses, the Italians definitely having defeated the enemy's efforts to break the line from the upper Piave, according to announcement from Rome. This action followed an encircling movement, begun Tuesday, when the Austro-Germans made a massed attack upon Malga Slappel. In this initial attack of the day they were forced to retire, leaving complete sections of machine guns in the Italian's hands.

Details of the subsequent fighting, which ended in a victory for the forces of General Diaz, are awaited anxiously. For several days it has been known that the enemy was preparing for a still greater offensive thrust in the northern region in a mighty effort to break through.

The official Rome statement merely chronicles the fact that Italian batteries carried out concentrations of fire on en emy troops massed in movement. Ber lin Wednesday contented itself with the announcement that there was "nothing

to report" from the Italian front.

Major General F. B. Maurice, chief director of military operations at the British war office, announced yesterday that he was able to say definitely that the erisis in Italy had passed. He added that Anglo-French troops are available in sufficient numbers in Italy "to satisfy us that the situation is secure." He further said that there had been no important movement of German troops from the Russian front.

General Maurice pointed out that German inability to exploit the Italian dis-aster could be regarded as significant of Austro-German weakness. "The results which the Germans at

tained in their first attack," he said, "were due solely to the successful propaganda among the ignorant soldiers of the uneducated peasant class. This success far exceeded any German expectation. But, having gained this success, it would be expected that the Germans would do all possible to exploit it. They have been able to do nothing beyond following up the Italian retirement. Even might naturally be expected Germany would rush up to strike a decisive blow at the enemy. Why? My only answer is they are not there because Germany is unable to send them. She is unable to

exploit the opportunity offered." The Italian statement of Wednesday follows:

"On the Asiago plateau, in the Primolano basin, at the north of Coldella Berretta on the middle Piave, our batteries, in co-operation with bombardment flight, have carried out concentrations of fire on enemy troops massed and in movement. Four enemy aixplanes were brought

down vesterday by our airmen. TO PUBLISH CALEDONIAN.

FLAUNTED CHALLENGE

TO GERMAN NAVY

Declared That British Navy Is Not Hiding Behind Shore Defenses But Relies on Its Own Strength.

Base of British Grand Fleet, Nov. 30 (Correspondence).—The head of the Brit-ish admiralty, speaking the other day in the House of Commons, flung out a challenge to the German navy. He said, "I disclose no secret, or if it is a secret I disclose a fact which I should be glad to tell the enemy-when I say that the British grand fleet in its northern base lies behind no shore defenses, but relies on its own strength alone."

There are people in the United States who do not appreciate the activities of the British navy in its home waters, who of removing this impression, the Assowhat sort of a day's work it puts in a-tives" enough". H. WHITMAN. day after day and week after week.
